You'll be able to download the books at Project Gutenberg as MOBI, EPUB, or PDF files for your Kindle.

Apexi Power Fc Tuning Guide

First step in tuning is to obtain and set the correct vacuum AFRs for various RPMs, which should be done at 80C+ ECT. For each RPM column (whether 400 RPM intervals or 250-500 RPM intervals), hold the RPM and log for approximately 3-5 seconds. Do not worry if RPM is off by +/- 50 RPM or even by 100.

Tuning Guide - FC-HAKO - Apexi Power FC tuning hardware ...

The data preprogrammed into the POWER FC is a result of hard engine dyno testing and is meant to maintain the power and torque levels of the factory engine. However units should be tuned by a professional tuner and require initial setting modification BEFORE use on engines with ANY modifications. ②High resolution MAP

1st. Install the FC-Edit software from the FC-Datalogit CD provided. 2nd. Connect the "FC-Box" to the Power FC. The "FC-Box" has one lead running out of it with a plug on the end. (The same type of plug as the Power FC commander). Plug that lead into the commander socket on the Power FC (just like you would plug the commander into the Power FC).

cars. When the PowerFC came out, Apexi Japan went to a number of shops and certified them as "PowerExcel" shops. These shops had a software program called "FC Pro" for tuning customer's cars with. An end user could take their car to a shop, ask for a PowerFC, and the shop would install it and tune it with their FC Pro software. The

FD3S PowerFC FAQ

Disclaimer #2: A Power FC is not a bolt-on power adder. Its not like adding an intake, where you spend an hour installing it, go to the dyno and gain 10 whp. With a Power FC, you're actually likely to lose power or way worse, blow your engine if you have a poor map in the car. The Power FC does not have any safety feedback features like the ...

How to load a custom MAP on APEXI POWER FC

APEX Co. Ltd. was founded in 1992 on the principle that top-quality performance parts should be available to everyone at a reasonable price. APEXi quickly earned a worldwide reputation of being one of the leading manufacturers of automotive performance products.

APEXi - Nengun Performance

Z32 MAF and 750cc Injectors. - Genuine Bosch Part. These are a Must when doing a turbo upgrade on the SR20DET or KA24DE. I think Wyn is planning to use the Z32 MAF to upgrade his RB25DET - works well with the Apexi Power FC giving raised bhp potential over the stock RB version. About 2 weeks ago the same car was run again and made 315rwkw on 23psi.
