pose again we have a solution $p_{\text{const}}(q,r,t)$ for the pressure distribution due. to a well located at the origin, flowing at rate q . The solution for a a reservoir. containing two wells as shown in Figure 1.3 can be generated by summing. this solution as follows: $p(r,t) = p_{\text{const}}(q_1,r_1,t) + p_{\text{const}}(q_2,r_2,t)$ (1.43) where.
