Microcontroller
And Embedded
Systems Using
Assembly And C

Using Assembly and C features a step-by-step approach in covering both Assembly and C language programming of the AVR family of Microcontrollers. It offers a systematic approach in programming and interfacing of the AVR with LCD, keyboard, ADC, DAC, Sensors, Serial Ports, Timers, DC and Stepper Motors, Opto-isolators, and RTC.

Thursday, September
26, 2013. AVR Projects.

Dear Students, As i
have worked on
Embedded System, i
worked on AVR
microcontroller. And i
have made some
projects on AVR. If any
final year student is
interested to purchase
the projects. He or she
contact me through em
