Like with your adult cats, only buy sardines packed in water or fresh, frozen sardines you can thaw and process. Although sardine bones are soft enough for adult cats to chew, you need to remove them for kittens. If you shred the fish first, it should remove any larger, more harmful sized bones.

sardines for dogs (and cats) are those in water with no salt added. Avoid sardines packed in soy, corn, sunflower, safflower, or other omega-6 rich oils. Use the entire can of sardines within two days after opening it, and refrigerate the open can, so that the fragile fats do not go rancid. Don't overdo it!

## **Answer Key**

The best sardine to give to dogs is wild-caught sardine, packed in water. Dogs can eat the whole fish. You also do not have to worry about mercury.

Sardines are small fishes that their mercury content is almost negligible when compared to larger fish like tuna. Look at a sardine as a snack or a tasty treat for your dog.
