Search in Confluence in child pages -- how to? Search in Confluence in child pages -- how to? Rumceisz Feb 25, 2015.  
Hi Everyone, many users of our

# Read Book Confluence Search Engine

Confluence need a search function which search only in the current page and its child pages. They have plenty levels of page hierarchy and they don't want to search through the whole space.

## **Solved: Search in Confluence in child pages -- how to?**

Confluence's search is built for finding

# Read Book Confluence Search Engine

pages, not content within a page. So even if you did this, the result would not be anything more than a link back to the page you were on. To search the current page for something, try CTRL-F - most browsers will pop a text search for you.
